

First Prompt:

I got help with Chatgpt:

Create a simple advocacy website using HTML, CSS, and a little JavaScript.

The advocacy topic is: [INSERT YOUR TOPIC HERE — e.g., Climate Change Awareness / Anti-Bullying / Mental Health Awareness]

Requirements:

- Use clean and modern design
- Make it beginner-friendly and easy to understand
- Use only one HTML file, one CSS file, and one JS file

Sections to include:

1. Header / Navigation Bar

- Website title
- Navigation links (Home, About, Advocacy, Get Involved, Contact)

2. Hero Section

- Eye-catching title
- Short slogan or message
- Background image or color
- Call-to-action button (e.g., "Join Us" or "Learn More")

3. About Section

- Explain the issue
- Why it matters
- Who it affects

4. Advocacy Section

- Goals of the advocacy
- Key points or solutions
- Use icons or cards if possible

5. Get Involved Section

- Ways people can help (donate, share, volunteer, etc.)
- Add buttons or links

6. Contact Section

- Simple contact form (name, email, message)
- Social media links (can be placeholders)

7. Footer

- Copyright
- Short message

Design Requirements:

- Use soft colors and readable fonts

- Add hover effects for buttons
- Make it responsive (works on mobile)

Bonus:

- Add smooth scrolling when clicking navigation links
- Add simple animations (fade-in or hover effects)

Refinement Prompts:

- can you make the website more mental health centered? like i mean with the design, its too simple
- can you add more testimonials? make it so that it scrolls horizontally in its section. maybe just make it 6. dont change anything though, just add some testimonials

Add more testimonials and enable horizontal scrolling for the section

can you make the website more mental health centered?
like i mean with the design, its too simple

Show less

Planning visual system redesign (9 seconds)

Let me read the current files and give the site a much more immersive, mental-health-centered visual overhaul.

3 actions

Got it — time for a proper redesign. I'll switch to a soft lavender/purple mental wellness palette, add animated breathing orbs in the hero, wave dividers between sections, a quotes/voices section, glassmorphism cards, and much more immersive visuals throughout.

2 actions

Now update the full App with all the new sections and visual elements:

4 actions

Looking great! The hero is already dramatically more impactful. Let me present the updated site.

"Mental illness is nothing to be ashamed of, but stigma and bias shame us all." — Bill Clinton

Despite its importance, mental health is chronically underfunded, misunderstood, and stigmatized. Conditions like depression, anxiety, PTSD, and bipolar disorder affect people of all ages, backgrounds, and walks of life — yet millions go without care.

Everyone is touched by this crisis — students crushed under pressure, veterans battling invisible wounds, parents silently struggling, and seniors isolated and forgotten. None of them should have to face it alone.

1 in 5
Adults experience mental illness every year

50%
Of all mental illness begins by age 14

75%
Of those affected receive no treatment

\$1T
Lost in global productivity each year

Advocacy Hub 46% Upgrade

Add more testimonials and enable horizontal scrolling for the section

Mental Health Advocacy Website

Open

Your **Mental Health Awareness** advocacy website is live and ready! Here's what was built:

All 7 sections included:

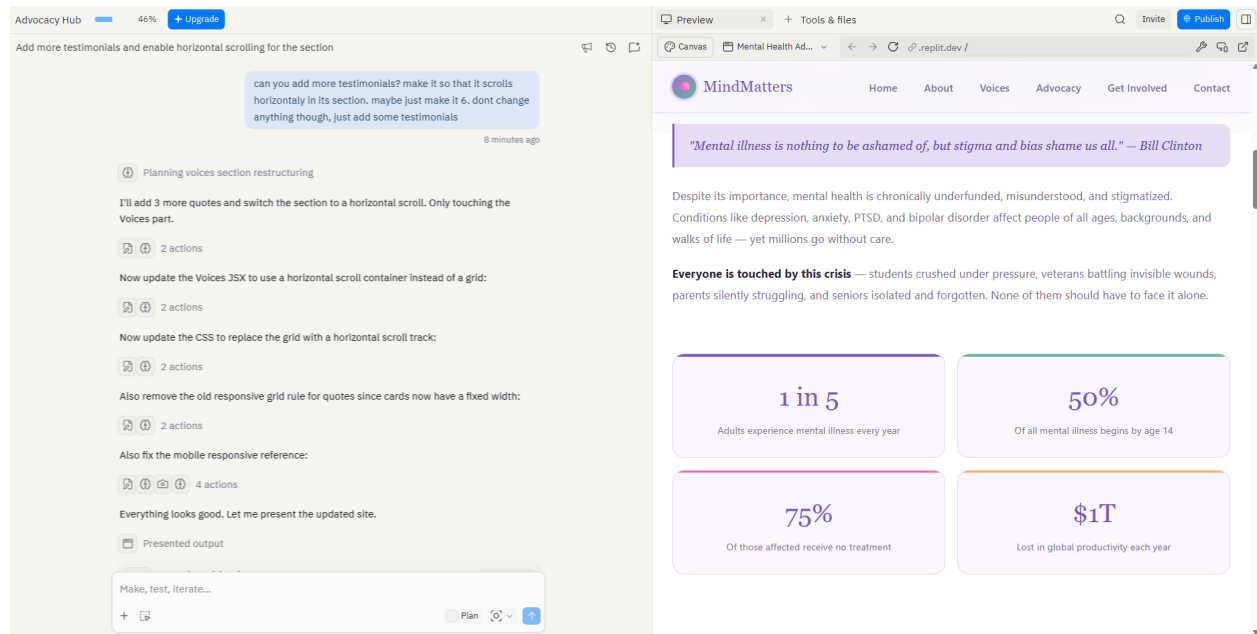

- Navbar** — Fixed at the top with smooth-scroll links and a mobile hamburger menu
- Hero** — Bold headline, slogan, two CTA buttons, decorative background, and an animated scroll indicator
- About** — Explains mental health, why it matters, who it affects, plus 4 real statistic cards
- Advocacy** — 6 goal cards with icons covering: Break the Stigma, Increase Awareness, Access to Care, Community Support, Policy Change, and Youth Mental Health
- Get Involved** — 4 action cards: Donate, Volunteer, Spread the Word, Educate Yourself
- Contact** — Form with validation (name, email, message) + social media links + a 988 Crisis Lifeline callout
- Footer** — Copyright and closing message

Design features delivered:

- Soft teal/green color palette with warm gold and orange accents
- Poppins + Inter font pairing
- Hover effects on all buttons, cards, and nav links
- Smooth scroll navigation
- Fade-in entrance animations (via IntersectionObserver — no libraries needed)
- Fully responsive for mobile, tablet, and desktop
- All code is commented so you can easily follow along
